INTEROCEANIC CANAL

Nicaraguan Route Recommended by
Canal Commission.

REPORT SUBMITTED TO CONGRESS.

Comparative Cost and Advantages
Of the Nicaraguan and Panama
Routes—Nicaraguan Survey Is
Longer But More Practical.

Washington, Dec. 4.—President McKinley submitted to congress the report of the canal commission.

The report of the commission gives as the unanimous conclusion of that body that "the most practicable and feasible route for an Isthmian canal, under control, management and ownership of the United States, is that known as the Nicaragua route."

The committee estimates cost of this route at \$200,540,000. This estimate is much in excess of any heretofore made and is due to increased dimensions and other features not heretofore considered. The commission also estimates the cost of a canal by the Panama route at \$142,342,579, according to one route, or \$156,378,258, according to another route. As between the Nicaragua and Panama route the commission sums up a number of advantages favorable to the former. It states also that under the concession given by the government of Colombia to the Panama canal company, that company is not free to grant the necessary rights to the United States except upon conditions made by the company. The report is a document of about 17,000 words, almost as long as the president's message. Although the work of the commission is not yet completed, many of the field parties still being out, it has been sufficiently advanced to make it practicable to present this preliminary report giving the essential findings. A thorough investigation has been made not only of the Nicaragua and Panama route, but of other possible routes, the commission keeping in mind the industrial, commercial and military value of an interoceanic canal, and also the rights, privileges and franchises necessary to be secured for the construction of a canal under the control, management and ownership of the United States. In all, 31 working parties were organized and sent into the field, making a force of about 220 engineers and assistants, besides about 600 laborers, boatmen and other workmen employed in the various countries, a total of more than 800. Meanwhile the members of the commission personally conducted various branches of the work. One party went to Paris, where it examined details of the Panama canal project of the French company.

Size of the Canal.

The commission favors a canal 150 feet wide at the bottom and 35 feet deep at mean low water, to enable the very largest ships to pass each other, with locks 740 feet long and 84 feet wide. These dimensions are larger than any previously proposed on account of the increase in size of ocean-going vessels, and as it is estimated the canal could not be completed within 10 years, allowance is made for further increase in maritime dimensions. A double system of locks is favored. With single lock system and narrowing the bottom one-third would reduce the cost to \$163,913,000. The Nicaraguan route is 186 miles long, following the lines laid down by the commission of 1897, beginning at Greyton on the Atlantic following the San Juan river into Lake Nicaragua, and terminating at Brito on the Pacific. The greatest obstacle to overcome would be the construction of a dam across the San Juan river, which would require eight years.

The Panama route is 35 miles long with a 300 foot summit at mean tide. With single locks and narrow bottom the cost could be reduced to \$115,941,215. Value of the work already done by the French company is estimated at \$33,934,463.

The Panama canal would be shorter, have fewer locks and less curvature than the Nicaragua canal. The measure of these advantages is the time required for a vessel to pass through, which is estimated for an average ship at 2 hours for Panama and 33 hours for Nicaragua. On the other hand, the distance from San Francisco to New York is 377 miles, to New Orleans 579 miles, and to Liverpool 386 miles greater via Panama than via Nicaragua. The time required to pass over these distances being greater than the difference in the time of transit through the canals, the Nicaragua line, after completion would be more advantageous to the United States, notwithstanding the greater cost of maintaining the longer canal.

The report says the United States will derive far greater benefit from the canal than Europe, both commercially

and industrially. The benefits Europe would derive would be commercial; in addition to this ours would be political and industrial.

In view of all the facts and particularly in view of all the difficulties of obtaining the necessary rights, privileges and franchises on the Panama route, and Nicaragua and Costa Rica recognizing the value of the canal to themselves and are prepared to grant concessions on terms which are reasonable and acceptable to the United States, the commission is of the opinion that the most practicable and feasible route for an Isthmian canal to be under the control, management and ownership of the United States, is that known as the Nicaragua route.

SHUT OUT.

Duke of Manchester Disqualified to Sit in House of Lords.

London, Dec. 4.—The house of commons after a visit to the house of lords where royal approval of the re-election of the speaker, William Gully was signified, proceeded to swear in the members of the house of commons. The only interesting feature in the house of lords was the lord chancellor's announcement of the receipt of certificates showing the Duke of Manchester and Baron Sudley had been adjudicate bankrupts, precluding their sitting.

Experimental Maneuver.

Washington, Dec. 4.—By direction of Major General Wood, commanding the division of Cuba, the cavalry troops are engaged in a series of marches of not less than two weeks duration. Commanding officers have been instructed to give special attention to the needs of actual service in the campaigns, loading and unloading of transportation, pitching and taking down of tents, including the shelter tent, cooking, signaling, field sketching, packing and exercises in minor tactics. A careful itinerary will be made of the routes passed over and the report of the march will be accompanied by a map of the route.

Report on Paris Exhibit.

Philadelphia, Dec. 4.—The United States commissioners to the Paris exposition met at the Hotel Bellevue and completed the report which they will submit to President McKinley. M. H. DeYoung, president of the committee, presided. Franklin Murphy of New Jersey was chairman of the committee which prepared the report. After the meeting the commissioners were entertained at luncheon by William D. Elkins, the Pennsylvania representative at his country residence near this city. Later in the day the commissioners went to Washington where they will be guests of the president.

New Incorporations.

Albrecht company, Cincinnati, \$100,000; Akron People's Telephone company, Akron, \$1,000; Home Grocery company, Miamisburg, \$2,000; Hungarian Ith S. Elisabeth's Ladies' Benevolent Aid Society of Toledo.

Killed by Collision.

Suisun, Cal., Dec. 4.—A freight train collided with a construction train on the South Pacific three miles south of here. Eight are dead at the scene of the wreck and 22 injured men have been brought into Suisun. The killed and wounded are all laborers who were engaged in repairing the track.

Died in Service.

Springfield, Ills., Dec. 4.—James A. Winston, 76, a clerk of the United States court in Oklahoma under Judge W. M. Springer, died in this city. He was chief clerk in the revenue office of this district during President Cleveland's first term and had been circuit clerk of this county.

Onc His Job.

Jackson, Mich., Dec. 4.—Ex-Quartermaster General William L. White, who was sentenced to 10 years for fraud and embezzlement in connection with the state militia clothing frauds was received at the penitentiary here. He was numbered 7,342 and assigned to the tailor shop.

Expenses at Paris.

Washington, Dec. 4.—Commissioner Peck's report of the expenditures of the Paris exposition commission for the year ending Nov. 15, 1900, was sent to the senate. The total amount expended was \$939,465.

The Weather.

For Ohio.—Fair, except snow flurries near the lake; variable winds becoming fresh to brisk northwesterly.

For West Virginia.—Fair except probably snow in the mountain districts, northerly to westerly winds.

NEW LEAGUE FLUKED.

Eastern Men Fail to Come Forward
In the Project.

WESTERN CITIES DROP THE DEAL.

Everything Was Lovely and the Goose
Was on the Top Peg Until McMurtry
And Robinson Bucked Out.
No National Association Now.

Milwaukee, Dec. 4.—As far as Milwaukee and other western cities are concerned, the matter of establishing a new baseball league to be known as the National association is off. Failure of certain eastern men to co-operate in the plan of formation is given as the cause for abandoning the project. A. H. Koch of Milwaukee, who represented this city's interest in the talked-of new league, said: "As far as myself and other Milwaukeeans are concerned, the formation of the baseball league to be known as the National association is off for the coming year, at least. Everything was going along nicely until McGraw and Robinson in the east went back on us. The western end was solid for the movement and everything looked extremely hopeful until the change came in the east and we were deserted by McGraw and his colleague. We have withdrawn our money which was put on deposit with the Baltimore Trust company and the deal is off."

John Hepp Skipped.

London, Dec. 4.—A dispatch from Hankow says the Kalgan expedition was ineffective, the Chinese evading all attempts to engage them. The towns en route were unoccupied and unopposed and some tolls of skins and silver were levied. The cavalry captured the baggage of retreating Chinese force at Swen-Hwa fu, killed 30 of its guards and secured 20,000 taels. Three mandarins who were instigators of the massacre of converts at Tsingming and 23 Boxers were executed, but the Germans generally ignored evidences of anti-foreign activity. There are continuous disturbances in the interior, where a bad impression has been made by the excessive withdrawal of foreign troops and the complaisance of the allies. Missionaries anticipate a recrudescence of outrages. The Yang Tze viceroys who are masters of the situation gave Vice Admiral Seymour satisfactory assurances of their future policy on the occasion of his recent visit to these officials.

Signed and Sealed.

Frankfort, Ky., Dec. 4.—The state election commission elected C. M. Duty (R.) to succeed Commissioner Yontz, and Allen Smith of Louisville secretary. The canvassing of the November election returns was completed and certificates of election were issued to Governor Beckham (D.), Judge-elect O'Rear (R.), the 13 Bryan electors and nine Democrats and two Republicans for congress. The contests over the minor state offices seem likely to be renewed. From motions and affidavits filed in the court of appeals it is evident that ex-Governor Bradley and other attorneys will try to bring the former judgment of the courts in the contest cases up for review by the court of appeals after its reorganization in January, when Judge O'Rear goes on the bench, giving the Republicans a majority in the court.

Paris Murder Mystery.

Paris, Dec. 4.—A package containing the severed head, arms and legs of a young man have been discovered in some waste ground near the Rue des Platiers, at Belleville, and another package containing a dismembered and otherwise mutilated trunk, was found in a gateway on the Rue du Faubourg St. Denis, a mile and a half distant. The two discoveries apparently connect with the same murder, evidently committed recently, from the appearance of the body when found. The first package was deposited by six men, who were seen from a dwelling house opposite. The crime has caused a great sensation.

Lloyd Smith Bound.

Chicago, Dec. 4.—Lloyd J. Smith, who was acquitted in the criminal court of a charge of shipping grain from the warehouses of the Chicago Elevator company without canceling the receipts was found guilty by the directors of the board of trade and expelled from his seat in that organization, by an almost unanimous vote. The trial lasted 11 days. The evidence produced tended to show that the elevator company of which Smith was general manager, had shipped 800,000 bushels of grain without canceling the receipts.

Fire almost totally destroyed building and stock of Stambaugh-Thompson hardware company at Youngstown, O. Loss \$100,000.

AS VIEWED IN LONDON.

Comment of British Editors on the
President's Message.

London, Dec. 4.—"Mercifully," says the Pall Mall Gazette, "not even the conscientious Renter has cabled the full 15 columns of President McKinley's message. This was wise since no English paper could possibly have printed it to the necessary exclusion from its pages of arsenical Boer and other things that really do stir the great heart of the people. The most interesting section, however, China, is given in full; but it cannot be said that its length is equivalent to its strength."

The Globe alights the ultra-jingoistic opinions, of which it has almost a monopoly. Taking for its text the reverence to the Isthmian canal it declares that Washington is not entitled to override our treaty-secured rights in any part of Central America, except with the consent of our government. The Hay-Pauncefote compromise goes farthest in extreme conciliation and represents this country's very last word, and the United States must either accept the proposal as it stands, or abide by the ruling of the Clayton Bulwer treaty, however embarrassing its provisions may be to American imperialism. The Daily Graphic says: "The policy of the United States regarding China is not heroic, but it is certainly practical, and there is ample reason to believe that it will prevail." The Times says: "The message makes it clear that on the vital point of insisting upon punishment for the outrages Mr. McKinley remains firm." The Daily News says: "The message contains nothing now and nothing very illuminating on matters that are old." In the opinion of The Standard the Washington government has "acted as a drag on European diplomacy."

Secretary Gage's Report.

Washington, Dec. 4.—Secretary Gage's annual report on the condition of the federal treasury was made public Tuesday. Its salient features were epitomized in the president's message. The report shows that the receipts for the fiscal year 1900 aggregate \$669,595,431.18; total expenditures, \$590,068,371; balance \$79,527,060.18. Total gold stock of the United States July 1, 1900, \$1,024,439,244; silver, \$617,371,030. Total circulation Nov. 1, 1900, Gold coin, \$621,761,263; gold certificates, \$215,595,969; standard silver dollars, \$73,479,469; silver certificates, \$421,380,745; subsidiary silver \$51,025,187; treasury notes, \$65,478,460; United States notes, \$333,295,061; national bank notes \$323,373,258; currency certificates, \$1,780,000. Total exports of merchandise valued at \$1,394,483,082; total imports, \$849,941,184. Total receipts from internal revenue taxes \$295,316,107.57. Total number of immigrants during the year, 448,572; not including 65,635 alien passengers.

Cabinet Meeting.

Washington, Dec. 4.—The cabinet meeting developed nothing of special interest. A copy of the civil municipal code for the Philippine islands prepared by the Philippine commission was presented and the portion relative to collecting revenues was read. The code, it is said, follows closely along the lines of the laws of the United States guaranteeing civil and religious liberty, and protection for persons and property. The code will not go into effect until it has met with the approval of the president and it is possible that congress may be suggested to more fully meet the views of the administration. It was announced that General Chaffee telegraphed the secretary of war asking for authority to provide more suitable quarters for the legation guard in Peking during the winter months.

Cutting Down War Taxes.

Washington, Dec. 4.—The Republican members of the ways and means committee had another meeting to consider the bill for the reduction of the war revenue taxes. There is some talk in the committee of increasing the reduction over the \$30,000,000 at first agreed upon and there appears to be a prospect that some increase over the original figures will be made, but no definite action has yet been taken. The Republicans probably will hold several meetings before final action is taken and a caucus of the Republicans may be held.

At Philadelphia 600 members of pressmen's union struck for uniform wages; 76 job offices affected.

SHIP SUBSIDY BILL.

Senate Decides to Give the Measure Immediate Consideration.

ITS MERITS DISCUSSED BY FRYE.

Senator Pettigrew Wants Information Regarding the Cuban Postal Scandals—Clark Case Given a Whirl—Dolliver Seated.

Washington, Dec. 4.—Senator Frye (Me.) moved that the senate proceed to consideration of the shipping subsidy bill. Senator Jones (Ark.) demanded a roll call on the taking up of the bill. The motion carried, 38 to 29. Senator Frye then took the floor and made a speech in favor of the bill.

Mr. Frye reviewed what had been done in the past to revive the merchant marine of the United States, saying every effort made so far by legislation had failed of its purpose. The world, he said, had entered upon a great commercial war which would be a long and fierce contest. He also pointed out the subsidies which foreign governments were paying their ships. He said it cost 80 per cent more to run our ships than it did to run the ships of Great Britain and Norway.

Senator Pettigrew introduced a resolution calling upon the postmaster general to send to the senate any information he may have in his possession concerning the postal frauds in Cuba. Senator Platt (Conn.) made objection to immediate consideration, and the resolution went over for a day.

The case of Senator Clark (Mont.) came up for a few moments, but at 2 o'clock went over.

Jonathan Prentiss Dolliver, who was appointed to succeed the late Senator Gear of Iowa, took the oath of office.

Among the bills passed by the senate was one authorizing George D. Melkjohn to accept a decoration of Chevalier of the first class from the government of Sweden and Norway.

Sulzer's Boer Resolution.

Washington, Dec. 4.—Representative Sulzer (N. Y.) introduced in the house the following resolution: Whereas the war in South Africa has degenerated into a reckless and ruthless extermination of a brave people fighting for their homes and liberty; resolved, that the congress of the United States protest in the name of humanity and civilization against a continuation of war which outrages the feelings of all liberty loving people and that the congress of the United States being committed to the principle of arbitration for the settlement of international disputes, urges upon the government of her majesty the wisdom of adopting this policy for the purpose of stopping the awful atrocities now going on in South Africa.

Supreme Court for Philippines.

Washington, Dec. 4.—Senator Stewart introduced a bill creating a supreme court for the Philippine islands with five judges, who are to be appointed for life and each of whom is to draw a salary of \$29,000 per annum. The bill provides for an appeal or writs of error to the United States supreme court in all cases involving more than \$20,000 and in those in which the constitution of the United States is involved. Speaking of his motive for placing the salary at so high a figure, Mr. Stewart said he had done so in order to secure men of character and professional standing for the office.

Batch of Appointments.

Washington, Dec. 4.—The president sent to the senate a large number of appointments. Among them were William Bynum of Indiana, to be commissioner to revise and codify the criminal and penal laws of the United States; Jacob Trieber of Arkansas to be United States district judge for the eastern district of Arkansas; William M. Johnson of New Jersey, to be first assistant postmaster general.

Correct Creditin's.

Washington, Dec. 4.—In the house Mr. Hepburn (Ia.) withdrew the credentials of J. P. Connor of Iowa, who was elected to succeed former representative, now senator, Dolliver, and offered new credentials from the governor of Iowa, certifying to the election of Mr. Connor. No objection was made and Mr. Connor was sworn.

Anti-Trust Bill.

Washington, Dec. 4.—Senator Clay of Georgia introduced bills providing for admission free of duty of articles controlled by trusts, and for the refunding of the tax collected on raw cotton in the event that the supreme court holds to be unconstitutional the law under which the tax was collected.

NEW PUBLIC LIBRARY.

The Recent Entertainments a Most Gratifying Success—Steady Growth of This Deserving Institution.

The ladies in charge of the New Public Library are very much gratified over the success of the recent entertainments given at the opera house for the benefit of this deserving institution. Financially the entertainments exceeded expectations, the net receipts amounting to about \$75. The old fiddlers' contest was a novelty and was enjoyed by a large audience. The "Mrs. Jarley's Wax-works," and the amusing farce in connection with it, afford a pleasurable afternoon for the Thanksgiving holiday.

This New Public Library has enjoyed a steady growth from the start and the good women in charge of it are indeed to be congratulated. That this institution is filling a long-felt want is evidenced by the large number of books taken out weekly. The library headquarters adjoining the BULLETIN office in the Glasscock Building present an animated scene each Friday afternoon when the room is open for the return and the giving out of books. In the neighborhood of 200 books are given out weekly. These books embrace the very latest and most popular works of fiction, but the shelves are supplied also with the works of many of the standard authors.

The membership is not confined to residents of the city, but includes many of the prominent families of the county. If you are not already a member, it is certainly to your interest to become one.

The ladies desire to correct the impression, in the minds of some people, that they are opposed, in the slightest degree, to the Mason County Library and Historical Association, nor do they wish to interfere at all with the work of that association. They recognize the worth of the old library and wish it success, along with their own institution. They feel there is plenty of room for both.

DON'T KNOW HIM.

Republican Papers Who Malign Judge Cantrill Called Down.

An Anti Goebel Paper Scores the Ledger and Others of Its Class in Strong Terms.

[Paris Gazette.]
The unreasonable and fiery attacks of the Maysville Ledger and other Republican papers upon Judge Cantrill don't set very well with the editors of anti-Goebel Democratic papers who are thrown in constant contact with Judge Cantrill, and who know him well. In a recent issue the Ledger says:

Cantrill is a handsome, pompous, dignified, shallow, machine-ridden politician. Knowing very little law, but possessing an abounding egotism and blind partisanship, he was the exact person to be Judge for the Campbell & prosecution that have become the marvel of American jurisprudence. Beyond his willingness to serve Campbell and the Beckham machine, there has never been anything to commend him to the consideration of what he calls his party.

Let the Gazette, which is printed within the jurisdiction of Judge Cantrill's court, tell the editor of the Ledger, and those who print other outlying (and malicious lying) papers that Judge Cantrill is not pompous, is not shallow, is not machine-ridden. He does not possess an abounding egotism nor a blind partisanship. In truth, he was the exact person to be Judge at the trials of the Goebel suspects. He is an honest, straightforward, fearless man, and he renders his decisions without reference to the standing of the contestants.

The Bourbon Circuit Court has been presided over by Judges who have been noted for their learning and their fairness. Judge Cantrill followed Judge Jerre Morton and Judge Thomas Scott. The attorneys had some misgivings as to Judge Cantrill's ability to fill the position made vacant by these two lawyers of note. In fact, at a banquet given to the retiring and incoming Judges, Judge Cantrill himself expressed a fear that a comparison between the old and new Judges would be unfavorable to him. But at the very first court the members of the bar saw that Judge Scott and Morton had a worthy successor, and from that time to the present hour Judge Cantrill has had the esteem and confidence of every lawyer who practices before his court.

The Gazette was an out-spoken anti-Goebel, anti-Trumble paper, but it cannot read the abuse heaped upon Judge Cantrill by Republican organs without feeling that it is in bad company, and wondering that if to train with the trudgers of a Judge, whom it knows to be acting from a sense of duty, is the better part of wisdom.

The dispatches from Frankfort announcing that Judge Cantrill would be a candidate for United States Senator have been denied, and the statements made that he would be a candidate to succeed Judge Burnham on the Appellate bench. The Gazette was for him for Senator; it is uncompromisingly for him for the Appellate Court.

BRILLIANT NUPTIALS.

A Granddaughter of the Late James H. Hall Married at Atlanta, Ga., Last Week.

[Atlanta Constitution.] The marriage of Miss Edna Miller and Mr. Joseph Raine, Jr., occurred Thursday night at the First Methodist Church, Rev. J. E. Dickey performing the impressive ceremony. The church was filled to its utmost capacity by the hundreds of friends of the happy young couple. The bridal tableau made an exquisite picture—the girls in their airy yellow and white costumes and the bride in her net satin robe all pictured against the altar background of luxuriant palms with two clusters of handsome chrysanthemums. The ceremony was followed by a large reception at the residence of the bride's parents. The handsome and commodious home opened in wide hospitality. Flowers and ferns and palms made it the more beautiful; and as for the bride's table, it was a perfect picture in its soft yellow color effect.

Capt. and Mrs. Miller entertained their friends with delightful hospitality. Mrs. Miller, looking hardly less young than her bride daughter, wore a handsome gown of jetted lace over white silk. Mrs. J. S. Raine, mother of the bridegroom, was notably handsome in gray silk with trimming of point lace.

Mr. Raine and his lovely young bride left for a wedding journey North.

The bride is the eldest child of Capt. and Mrs. John A. Miller and is still very young. Miss Miller has had all the advantages of position and wealth and has unusual popularity.

Mr. Raine, the youngest son of Capt. and Mrs. Joseph S. Raine, is prominently connected with the insurance business of Atlanta.

In Social Circles.

Mr. Henry Wadsworth entertained last evening with an 8 o'clock dinner which surpassed anything here, in the social way, we have known in quite a while. Covers were laid for ten, and the repast was heartily enjoyed by Miss Mattie Wadsworth, Mrs. William N. Stockton, Miss Catherine Poynz, Miss Fannie Frazee, Miss Louise Poynz and Messrs. Rob. Bissell, Rees Kirk, Will Trout, Mr. Powell, of Alabama, and W. Henry Wadsworth.

A Woman's Awful Peril.

"There is only one chance to save your life and that is through an operation," were the startling words heard by Mrs. I. B. Hunt of Lime Ridge, Wis., from her doctor after he had vainly tried to cure her of a frightful case of stomach trouble and yellow jaundice. Gall stones had formed and she constantly grew worse. Then she began to use Electric Bitters which wholly cured her. It's a wonderful stomach, liver and kidney remedy. Cures dyspepsia, loss of appetite. Try it. Only 50c. Guaranteed. For sale by J. Jas.
